

Adding Custom Dimensions in Google Analytics for QPR Portal

1. After logging in to Google Analytics navigate to “Admin” page

2. Navigate to Property → Custom Definitions → Custom Dimensions

3. Add the following Custom Dimensions (1-5) in correct order:

A screenshot of the 'New Custom Dimension' table in Google Analytics. The table has a search bar at the top right and a 'Quota: 6 / 20' indicator. The table contains five rows of custom dimensions, each with a number, name, index, scope, last changed date, and state. At the bottom, there are controls for 'Show rows: 10', 'Go to: 1', and '1 - 6 of 6' with navigation arrows.

	Custom Dimension Name	Index	↑	Scope	Last Changed	State
1.	User	1		Hit	Dec 31, 2013	Active
2.	View	2		Hit	Dec 31, 2013	Active
3.	Model	3		Hit	Dec 31, 2013	Active
4.	Scorecard	4		Hit	Dec 31, 2013	Active
5.	Element	5		Hit	Dec 31, 2013	Active
